

## Line-up — Question Cards (cut-outs)

*Séjour St Mary's Calne · World Cup, tennis, basketball & horse riding · découper chaque carte le long des bords du tableau ; un paquet par question. Les élèves se rangent pour reconstituer la question, puis la lisent à voix haute.*

### Teacher notes

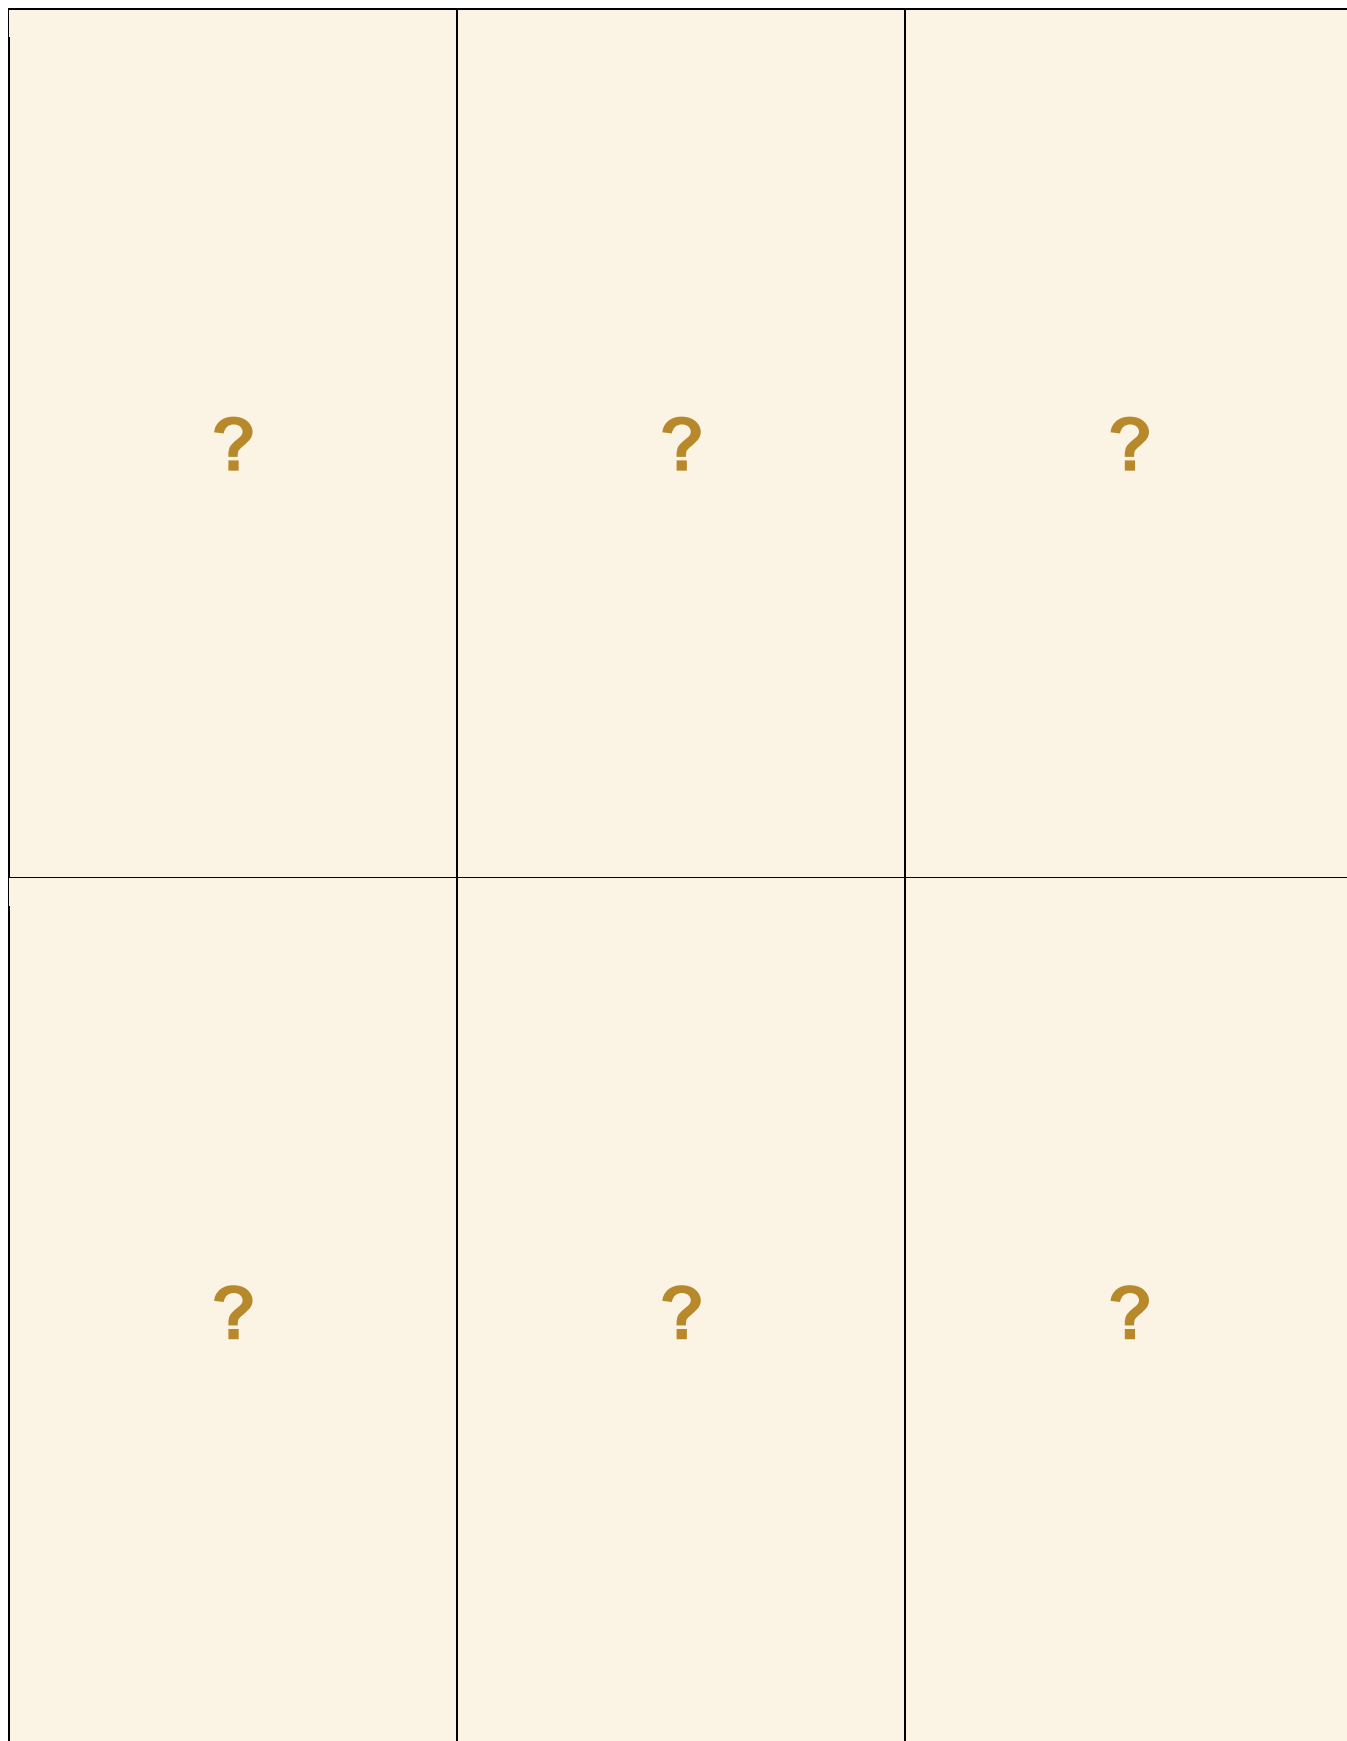

Distribute one word-card per pupil (a single question's pack). Pupils stand in a line to form the question, then read it aloud. With fewer pupils than cards, some hold two; with more, run two teams in parallel as a race to the correct sentence.

Differentiation: add a "trap" card (an extra auxiliary, e.g. a second "do", or a superfluous word) and ask pupils to spot and set aside the intruder — the same logic as the Human Sentence Building activity.

The question mark "?" is no longer part of each question's own card set (it used to spill onto an extra page on its own). Instead, cut extra "?" cards from the shared page below and add one to the end of whichever pack you're using. Cards are roughly phone-sized (~6×11cm) for easy handling and reading across a room.

## Question-mark cards (shared pool)

*Cut these out and keep them in a pile. Add one "?" card to the end of any pack before handing it out.*
