Note for the teacher

The original text is written in normal journalistic English (not simplified) and the discussion questions are abstract ("What makes something a sport?"). This version gives the same facts in short, simple sentences, with true/false checks instead of open discussion.

5. Game

Use "**Coach Says - Hobbyhorse Edition**" exactly as written in hobbyhorsing-did-you-know-and-game.md, section "Game" – no changes needed, it already works well for this group.

Companion file – the original hobbyhorsing-did-you-know-and-game.md is unchanged and should still be used with B1-B2 students for its fuller facts and discussion questions.
