5. Optional: watch the video

You can still show the video from the main file (Horse & Hound - *How To Ride A Horse*) just for enjoyment and exposure – no task attached. Simply ask afterwards, informally: "*Did you see the horse trot? Did you hear 'walk on'?*" – a show of hands is enough, not a graded task.

Horse Riding - A1/A2 Version

Note for the teacher

The main file's video task and reading passage are built for A2/B1+ (natural-speed coach audio, inferential comprehension questions). For A1 students especially, understanding fast native-speed instructor audio isn't realistic yet – so this version replaces the listening-comprehension task with matching and MCQ built on a much shorter, simpler text. Students can still watch the video (see step 5) – just without a task that depends on catching every word.

6. Game

Use "**Coach Says**" exactly as described in horse-riding-activity.md, section 6 – it's already accessible for this group (physical, low-language, and recycles the 8 words above).

Companion file – the original horse-riding-activity.md is unchanged and should still be used with B1-B2 students.

About this activity

Companion to `horse-riding-activity.md` – for A1-A2 students (true beginners included). Use this instead of the main vocabulary/reading/listening sections; the "Coach Says" game at the end of the main file works for this group too, unchanged. ~25–30 min
